

REMARKS

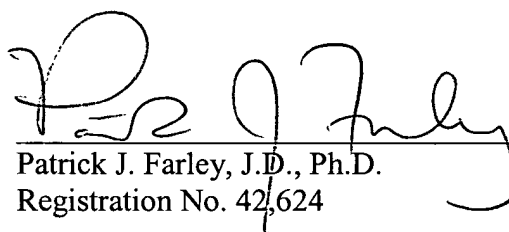

The Sequence Listing is provided in response to the Notice of Missing Parts, dated December 11, 2003. The sequence listing does not introduce new matter. Each of the Sequences in the Sequence Listing appears in the Specification and/or Drawings in the Application as filed.

The Applicant has amended the Specification at Paragraph [0036] to separate the description of Figure 3 into parts A, B, C and D, as shown in the Figures as filed. Further, the paragraph has been amended to include a description of which SEQ ID NOs have been assigned to the sequences shown in the drawing. No new matter is added.

The Applicants have amended Paragraphs [0072] and [0077] for clarity and to conform the SEQ ID NOs to those in the Sequence Listing. No new matter is added.

Applicants look forward to a favorable action on the merits.

Respectfully submitted,
